

Press Release for Global Sports Zone  
Monday April 2<sup>nd</sup> 2007

Global Sports Zone is proud to announce the launch of its new Sports Directory that is offered as a free service to all sports enthusiasts around the world.

Global Sports Zone is a Sports Directory that was developed from the need to provide sports enthusiasts, coaches, athletes, managers and all sports fans with a complete list of quality sports information websites and resources all in one place.

There is no longer a need to spend countless hours searching the internet for sports information as we have already done that for you. The internet is a powerful tool for finding information but it can also be an exhausting task trying to find the quality websites, products and resources.

The directory strives to cover all sports from the worlds biggest such as soccer, football, tennis, golf to the smallest such as bocce, korfbal and rounders. You will find everything from the history of the sport, to organizations, teams, athletes, products and services, chat forums, halls of fame, news and results, rules, training and much more.

In our General Sports category you will find various sports related resources including sports books, eBooks, magazines, calendars, memorabilia, fantasy sports, footwear, sports jobs, tickets to sporting events, trivia and much more.

Our Health and Fitness category is designed to provide resources on topics such as women's fitness, yoga and meditation, supplements, fitness equipment, sports modelling, sports medicine, nutrition to weight loss.

Our College Sports section provides resources for finding information on financial aid, college search resources, college sports organizations, teams, shopping for college links, college gear to general college information.

Our Sports Training section provides the viewer with information on sports training from strength and power, speed and agility, stretching and flexibility, endurance training, sports camps, sports psychology, personal training to general fitness resources.

Our Sports Business section contains information to help all sports professionals with resources and information for entrepreneurs, including information on affiliates, sports brands, marketing, management, exporters and importers and a huge directory of resources for web designing.

Our Editorial Team reviews each website before adding it to our directory. This is to ensure that each website complies with our strict admission criteria to maintain a high level of quality. The Global Sports Zone Team constantly searches the internet looking for the best websites within each designated sports category.

We select websites that are high in quality and content, provide a user friendly experience, avoid the annoying pop-up ads and are regularly maintained and updated.

“Our goal with Global Sports Zone is to provide quality resources for the global sports community. We have built a human edited sports directory that is sure to change how internet users search for quality sports information and resources. Quality and not quantity is what our directory is all about. We are excited about the future additions that will be made to the directory and the growth of our site is unlimited. Stay tuned for many more new and exciting features that we will be adding to the directory in the near future.”  
David Horne, Founder and Director of Global Sports Zone.

Global Sports Zone is a division of Global Sports Group.

We hope that you enjoy our Sports Directory!
